The practice will provide a patient upon request a copy of any authorization initiated by the practice (as opposed to requested by the patient) and signed by the patient.

The practice does not condition treatment of a patient on the signing of an authorization, except disclosure necessary to determine payment of claim (excluding authorization for use or disclosure of psychotherapy notes); or provision of health care solely for purpose of creating protected health information for disclosure to a third party (e.g., pre-employment or life insurance physicals).

In Illinois, a specific written authorization is required to disclose or release of mental health treatment, alcoholism treatment, drug abuse treatment or HIV/Acquired Immune Deficiency Syndrome (AIDS) information.

The practice allows an individual to revoke an authorization at any time. The revocation must be in writing and must be sent to the attention of the practice's privacy officer, however, in any case the practice will be able to use or disclose the protected health information to the extent practice has taken action in reliance on the authorization.

Individual Rights - Waiver of Rights

The practice never requires an individual to waive any of his or her individual rights as a condition for the provision of treatment, except under very limited circumstances allowed under law.
